Notes to the financial statements

1 - General

The Fund aims to provide investors with a choice of professionally managed Sub-Funds investing in a wide range of transferable securities and money market instruments in order to achieve an optimum return from capital invested while reducing investment risk through diversification.

The Units in each of the Sub-Funds are divided in three Classes: Class A Units, Class B Units and Class C Units. Class A Units, Class B Units and Class C Units differ in the targeted investors and in the subscription tax rate.

Class A Units are reserved to retail clients.

Class B Units are reserved to international institutional investors within the meaning of Article 174 of the 2010 Law.

Class C Units are dedicated to investors to be determined by the Board of Directors of the Management Company or by the Investment Manager under commercial practices.

The amounts invested in Class A Units, Class B Units and in Class C Units are themselves invested in a common underlying portfolio of investments, although the Net Asset Value per unit of each Class of Units may differ as a result of either the subscription tax and/or the Management Fees.

As at June 30, 2021, the following Sub-Fund is available to investors and two classes are active:

- NBG INTERNATIONAL FUNDS FCP / Dynamic Allocation Sub-Fund: Class A Units and Class B Units.

2 - Significant accounting policies

2.1 Presentation of financial statements

The financial statements are prepared in accordance with legal and regulatory requirements and in accordance with the generally accepted accounting principles for UCITS in Luxembourg, including the following accounting policies.

2.2 Valuation of assets

2.2.1 The value of any cash on hand or on deposit bills and demand notes and accounts receivable, prepaid expenses, cash dividends, interest declared or accrued and not yet received, all of which are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.

2.2.2 Securities and money market listed on a recognised stock exchange or dealt in on any other regulated market (hereinafter referred to as a "regulated market") that operates regularly, is recognised and is open to the public, are valued at their last available closing prices, or, in the event that there should be several such markets, on the basis of their last available closing prices on the main market for the relevant security.

2.2.3 In the event that the last available closing price does not, in the opinion of the Board of Directors of the Management Company, truly reflect the market value of the relevant securities, the value of such securities is defined by the Board of Directors of the Management Company based on the reasonably foreseeable sales proceeds determined prudently and in good faith.

2.2.4 Securities not listed or traded on a stock exchange or not dealt in on another regulated market are valued on the basis of the probable sales proceeds determined prudently and in good faith by the Board of Directors of the Management Company.

2.2.5 Investments in other open-ended UCIs are valued on the basis of the last available net asset value of the units or shares of such UCIs.

2.3 Net realised gains or losses resulting from investments

The realised gains or losses resulting from the sales of investments are calculated on an average cost basis.

2.4 Foreign exchange translation

The accounts of each Sub-Fund are maintained in Euro (EUR) and the financial statements are expressed in that currency. The acquisition cost of securities expressed in a currency other than the Euro is translated in Euro at the exchange rates prevailing on the date of purchase.

Notes to the financial statements (continued)

6 - COVID 19

Covid-19 has impacted the financial markets and thus the performance and the volatility of the Funds. The volatility in the financial market, although has retreated since last year's pick, but still remains at level higher than the long term average mainly due to new variants of the virus. The funds remain invested in liquid securities but it is worth mentioning that in extreme market conditions, no single financial product is immune against liquidity risk. In these difficult market conditions, we remain fully committed that our job and the operations of the fund are continued in a coherent and seamless fashion.
